

**Costruzione di corpora di arabo finanziario: materiali per il PRIN “A FinTech Regulatory Information Retrieval Model for an Islamic Finance Compliant Rule System Built from Spontaneous Arabic Texts”**

L'assegnista si occuperà di individuare, raccogliere e analizzare testi arabi scritti di ambito finanziario, con particolare attenzione alle tematiche del FinTech e del RegTech, nell'ambito del PRIN “A FinTech Regulatory Information Retrieval Model for an Islamic Finance Compliant Rule System Built from Spontaneous Arabic Texts”. Si richiedono in particolare esperienze acquisite negli ambiti della costruzione di corpora arabi, della loro analisi grafemica e fonologica (anche strumentale) e della loro trascrizione nei sistemi basati sugli alfabeti arabo e latino.

**Building financial corpuses of Arabic: materials for the PRIN “A FinTech Regulatory Information Retrieval Model for an Islamic Finance Compliant Rule System Built from Spontaneous Arabic Texts”**

The assignee will take care of detecting, gathering and analyzing Arabic written financial texts, notably in the fields of FinTech and RegTech, within the PRIN “A FinTech Regulatory Information Retrieval Model for an Islamic Finance Compliant Rule System Built from Spontaneous Arabic Texts”. A main requirement is previous experience in corpus building of Arabic texts, their graphemic and phonological analysis (including instrumental analysis) and their transcription based on both Arabic and Latin scripts.
